

# SPIRITIST SOCIETY OF SAN DIEGO

## INAUGURAL WORKSHOP SERIES

### Demystifying Mediumship Tuesday, July 10<sup>th</sup> 2007 - 6:30 to 8:15 pm

Presentation starts at 6:45pm.

From the oracles that carried the words of gods and goddesses, to the modern mediums of Hollywood movies and TV shows, a supernatural component seems always to be part of this phenomenon.

For Spiritism, mediumship is a natural occurrence with no supernatural components that has been around for as long as humans have.

Mediumship is the ability that allows for communication between spirits in free state and spirits immersed into the material experience (us). It is a natural faculty that if well understood might bring balance and progress.

While some of us have incredibly accurate eyesight, others need eyeglasses to barely grasp forms. The same occurs with the Mediumistic faculty. Some people are capable of maintaining ostensive communications, although others can barely perceive the phenomenon.

In this workshop we discuss the mediumistic phenomenon according to Spiritism. We talk about several famous mediums and their work. We also analyze what could be the most important key to understanding mediumship: its purpose. We can compare this ability to a bridge that by itself has no value, unless it connects proper lands.

Spiritist Ideas are built around the belief that the only mandatory requirement for Spiritual Evolution is "Love in Action". Therefore Spiritism embraces and supports all individuals, regardless of their beliefs. Thus, if you are not familiar with Spiritist ideas and/or want to know more about it, come and join us in this special workshop.

We close the workshop with a short meditation-visualization.

The Workshop is **FREE**, but registration is required (that helps us make proper arrangements). You can register on-line or call us at 858 784 1811 for phone registration. You may also register at the venue entrance.

Hope to see you there
